

Teachers use their digital competences as an added value to the teaching/learning process and to implement inclusive paths for students with SEN, for those who have a socioeconomic disadvantage and risk early school-leaving. Mobilities experience will definitely contribute to share innovative practices and projects, allowing our school to carry out processes which will make it safer, more inclusive, competitive and open to Europe.

THE IMPROVEMENT OF DIGITAL COMPETENCES WILL MAKE OUR TEACHING MORE EFFECTIVE AND WILL SUPPORT STUDENTS IN THE DEVELOPMENT OF AN AWARE DIGITAL CITIZENSHIP. COUNTERACTING EARLY SCHOOL-LEAVING, BULLYING AND CYBERBULLYING, TOGETHER WITH THE CREATION OF INCLUSIVE PATHS, CONTRIBUTES TO THE CREATION OF A SAFE AND WELCOMING LEARNING ENVIRONMENT. MOBILITY WILL BE CRUCIAL TO BUILD OUR SENSE OF BELONGING TO THE EU AND TO INNOVATE OUR TEACHING METHODS (STEM-CLIL-ROBOTICS-CODING-OUTDOOR EDUCATION) IN A CONSTRUCTIVE PERSPECTIVE OPENED TO EUROPE.
